

# Social Media

## Is Social Media Good for Society?

### Pros

Social Media promotes community that can translate into our supplement offline relationships

- People could interact and meet people from around the world
- People could find each other in a busy world
- Social media can be crucial to ones life and well-being
- Social media lets people give support that is needed that you can't get in real life.

Social Media encourages civic and political responsibility

- Young people are taking seriously the information they share and vet it
- Social media allows for political activists to fundraise and do many other things
- People say they were becoming more active to some degree

Technology has helped thousands of people connect and get things done faster. It has also helped people do things that weren't possible or were unthinkable.

### Cons

Social Media encourages the spread of misinformation

- Users may share biases, political affiliations, gender, race, sexual orientation, income, employment status, or any number of the demographic identifiers
- Users may also share explicit images, a oriental receipt of explicit images, photos of the actual person to expose them
- This could also lead to constant anxiety if something is going to happen and can be bad for mental help

Social media promotes cyber bullying that spills into offline life

- Social media can bring cyber bullying into someone's life
- Cyberbullying can hit some racially or sexually and can hit at an age as little as 10
- Cyberbullying can be very bad for self-esteem and mental health

Technology has been used for very bad purposes and has really affected some people. LOTS of people have used it unresponsibly.

Even though technology can be used for phenominal purposes but even more people can use it for bad. It has been really harmful and has really impacted people's lives.
